island, subject to the approval of the cortes-a reserve which we likewise make with regard to the other preferred termsjust as these terms will have to be ulti-mately approved by the senate of the

United States.

The United States require, as an indemnity for, or equivalent to, the sacrifices they have borne during this short war, the cession of Porto Rico, and other islands now under the sovereignty of Spain in the West Indies, and also the cession of islands ands in the Ladrones, to be selected by the federal government.

"This demand strips us of the very last memory of the glorious task and expels us at once from the prosperous island of Porto Rico and from the Western hemisphere, which became peopled and civilized through the proud deeds of our ancestors. It might perhaps have been possible to compensate by some other cession for the injuries sus-tained by the United States. However, the inflexibility of the demand obliges us to code, and we shall code, the island of Porto and other islands belonging to the crown of Spain in the West Indies, togeth-er with other islands of the archipelago of Ladrones, to be selected by the American

The terms relating to the Philippine seem to our understanding quite indefinite. On the one hand, the ground on which the United States believes itself entitled to occupy the bay, harbor and city of Manila, pending the conclusion of the treaty of peace, cannot be that of conquest, since, in spite of the blockade maintained on the bay by the American fleet and in spite of the siege established on land by a native army, supported and provided for by an American admiral, Manila still holds its own, and the Spanish standard still waves over the city. On the other hand, the whole archipelago of the Philippines is in the power and under the sovereignty

Therefore, the government of Spain thinks that the temporary occupation of Manila should constitute a guarantee. It is asserted that the treaty of peace shall determine the control, disposition and government of the Philippines, but as the intentions of the federal government, by regression, remain velled, the Spanish government must, therefore, declare that, while accepting the third condition, it does not, a priori, renounce the sovereignty of Spain even in the urchipelago, leaving to the negotiators to agree as to such re-forms as the conditions of those in possession and the level of the culture of their natives may render desirable.

The government of her majesty accepts the third condition, with the above mentiened declarations.

"Such are the statements and observations which the Spanish government has the honor to submit in reply to your excellency's communication. It accepts the proferred terms, subject to the approval of the cortes of the kingdom, as required by its constitutional duty. The agreement between the two govern-

ments implies the immediate suspension of hostilities and the designation of commissioners for the purpose of settling the details of a treaty of peace and of signing it under the terms above indicated.

"I avail myself of this occasion to offer to your excellency assurances of my highest consideration. Following is Secretary Day's response

through M. Cambon, under date of August 10, and which Epain declares embodacquiescence to her reservation Philippine sovereignty from discussion in

"Your Excellency:-Although it is our almodovar de Rio, which you left with the president on yesterday afternoon, is intended to convey an acceptance by the Spanish government of the terms set forth with commissioners on the part of Spain a treaty of peace, I understand that we concur in the opinion that the duke's note, doubtless owing to the various transformations which it has undergone in the course of its circuitous transmission by telegraph and in cipher, is not, in the form in which it reached the president, entirely explicit.

"Under the circumstances, it is considered that the most certain way of avoiding misunderstanding is to embody in a protocol, to be signed by us, as the representatives, respectively, of the United States and of Spain, the terms on which the pegaliations of the circumstances is and of Spain, the terms on which the pegaliations. in my note of the 30th ultimo, as a basis

"I therefore inclose herewith the draft a protocol, in which I have embodied the precise terms tendered to Spain in my note of the 30th ult., together with appropriate stipulations, appointing commissioners to arrange the details of the immediate evacuation of Cuba, Porto Rico and other islands under Spanish sov ereignty in the West Indies, as well as for the appointment of commissioners to

"WILLIAM R. DAY." The Americans hold that Spain saw the Philippine sovereignty was involved in the basis of peace laid down by the United States and her attempted reservation of Angust 7 is evidence thereof. The suspension of hostilities was deferred because of sion of hostilities was deferred because of this fact. A protocol in precise terms was demanded, because of this fact, and Cam-bon cabled Madrid, on the same day of Sec-retary Day's response, that the federal gov-crument had decided to state precisely in the protocol the basis open which peace must be reconstructed in the coment was pounded. men employed in the cement gang, he must be negotiated. It was only when the United States regarded Spain as having made an unqualified compact to feave Philippine sovereignty to a commission, by signing the pretocol, that hostilities were suspended. It was not designed by the United States to prejudge Spain's rights, but to have them determined under the protocol by the peace conference. Added to all the deductions from these communi-cations, the conversations in Washington

throughout the original peace negotiations left no room for Spain's representatives to doubt that the United States expected under the protocol to have and hold the right to consider Spain's Philippine sovereignty if they cared to exercise it.

MADRID. Nov. 12.—The result of the United States elections came as a surprise and disappointment to Sagasta, who had confidently expected that the Republicans would at least have lost control of the house of representatives. The Spanish cabinet is concinced that the elections upon which it has been counting to obtain better terms at Paris have resulted in nothing that can aid Spanish diplomacy.

The intended visit of Emperor William, in honer of which Admiral Camara's squadron is under orders to proceed to Cartagena, now furnishes another straw to clutch at. The queen regent, whose health is visibly impaired by the strain of the last eight months, thinks the wisest course to be for the cabinet to instruct the Spanish peace commissioners frankly to concede the American demand of the Philippines and to work honestly and expeditionsly to frame a treaty.

Not so, however, Sagasta, who is still

pines and to work honestly and expeditiously to frame a treaty.

Not so, however, Sagasta, who is still sparring for time and hones to succeed in one more gigante bluff. He now says that the cabinet requires the authorization of the cortes before it can consent to abundon the Philippines, and he is reported to have informed the Spanish commissioners that they have no mandage to discuss ers that they have no mandate to discuss such an eventuality.

WHO WOULDN'T BE A HERO! One of Hobson's Companions Kissed by Twenty-four Pretty iGrls

at Stuart, In. DES MOINES, IA., Nov. 12.-(Special.) Osborn Warden Deignan, who was at the helm of the Merrimac when Hobson took it into Santiago, on arrival at his home in Stuart, in., this morning, was kissed by twenty-four ladies besides his mother. When the stalwart young sailor, who is only 21, and was the youngest on the Merrimae, reached his home, all the residents of the town, 2,500 in number, were at the train. While the band was playing and the people cheering he walked up to his mother and embraced her most tenderly. Then twenty-four preity young ladies, members of the L. L. G., rushed up to him and asked to kiss him. Delgnan, who is bashful, evaded them and followed the band down the street eight blocks to his home.

The girls of the club, the Love Lost Girls, garized to write letters to the soldier followed him home. In the Deignans' front yard, before a crowd of beople, lifteen of them kissed him. They were: Louise Moulton, Mollie Kennelly, Veronica Regan, Ruth Leighton, Ruth Moulton, Tott Huntoon, Nalie Brown, Belle Traver, Goldie Taylor, Alice Bacon, Maggie Traver, Nelle Taylor, Leona Taylor, Rose Adamson, Lulii Bryan. Afterward, Mesdames Clifford, Smith. C. Traver and Alice A. Tam and Misses Minnle Green. SAW A SCHOONER GO DOWN. Lake Michigan Lightkeeper Reports the Loss of Six Men and a

Woman.

TOLEDO, O., Nov. 12 .- A Cedar Point fisherman named Veiliquet brings report here of the loss of a schooner and seven lives on Lake Erie. During the heavy blow of Thursday he was blown down the lake and landed on Green island. The keeper of the lighthouse there, Captain Gibeaut, told him of a wreck that occurred the day before. There was a heavy gale blowing with flurries of snow. He saw a twomasted schooner making heavy weather and later her mainmast was carried over-

and drifting down the lake. The remaining spar had been carried away and no life was to be seen on the helpless vessel. She was lost to view in the darkness and is supposed to have foundered.

Velliquet says the boat was a small coaster and must have been a stone or coal carrier between Detroit and Cleveland, or a Canadian eraft that carried farm produce into American ports at this time of the year. No vessel is missing from this port. from this port.

WASHINGTON, Nov. 12 .- Except in the unlooked for event of a recurrence of the gether improbable that the government will interfere by force or otherwise. The at-terney general had another conference with the president this morning in regard to the matter, and the conclusion was promptly reached that, as the demonstrations were not directed against the collector of cus toms in the performance of his duties as such, the government had no right, under the constitution or laws, to exercise its federal authority. Collector Tolbert was shot while away from his home, and on business entirely disconnected from that of his office, and, under these circumstances, the government, it is said, has not a shadow of right to interfere. If the collector had been shot in the discharge of his official duties, and in an effort to enforce the laws of the United States, the case would have been very different. the duty of the government of the United States would have been clear. In the present case, however, it is said the lawless acts of the mob were not directed against the execution of the laws of the United States, but against the individual. The case would have been the same had Tolbert been shot on the highway by a robber. Administration officials have no sym-pathy with the Carolina rioters and regard their acts with abhorrence, but up to this time it is said there is no evidence that would warrant any interference by the

GOVERNOR-ELECT ROOSEVELT BAN-QUETED LAST EVENING.

SAYS IT IS A CONDITION, NOT A THE-ORY, THAT FACES US.

Dr. Depew Says the Republican Party Is Confronting Difficulties That Will Make or Mar Its Fortunes at the Next Election.

NEW YORK, Nov. 12.-Governor-elect Theodore Roosevelt was the guest of honor at a hanquet tendered him to-night by members of the Republican Club at their home on Fifth avenue. The guests' table was presided over by Chauncey M. Depew, president of the club. Mr. Depew, before ntroducing Colonel Roosevelt, said: "The Republicans are satisfied with the

candidate. We are done with the fighting and shooting. Now comes the fulfillment of our pledges and the test of our ability to meet the expectations we have raised. "The election demonstrates, in the transfer of the house and the senate of the United States to Republican control, that the people wisely adopted Lincoln's famous maxim not to swap horses while crossing streams. The Cuban problem, the Porto ppines have come to us under the admin istration and wise policies in peace and

war of President McKinley. The voters have decided that he has so far done so well they leave to him the settlement of

popular indorsement on Tuesday of their

principles, and with the success of their

hese questions in which the future of our ountry is so deeply involved. "The Republican party for the next two ears in the untried field of governing far distant possessions and alien races is fac-ing difficulties which will make or mar its fortunes in 1900. But the party which re-constructed the Union of the states and which inaugurated the policies which have made our country supremely great and prosperous has the initiative, the heredity, the experience and the statesmen to make these new conditions work for liberty, hu-

the experience and the statesmen to make these new conditions work for liberty, humanity and the glory of our country and the happiness of the people wherever the dag floats."

Mr. Roosevelt spoke at length, his remarks being principally devoted to state questions. He said, in part:

"There are some points upon which we can congratulate ourselves, and one is that the victory of last Tuesday was won, as every victory in American politics worthy the name must be won, by the men acting together as Americans—nothing else but as Americans. We won because Protestant and Catholic. Jew and Gentile, wage-worker and employer, manufacturer, merchant and farmer, men of all conditions of life, came together as American eltizens, and as nothing else, to work for the welfare of the common state and common nation.

"We met every state issue. We met every national issue. But whatever may be the stand of the opposition on the silver question, we must be the seventh son of a seventh son to prophesy what it will be, from anything it has said on this election. Nobody can question where we stand. We stand squarely for honest money; for a dollar that is worth 190 cents, based upon gold.

Torpedo. NEW YORK, Nov. 12.-Hollands' submarine boat was tested to-day in the low-er bay by a board of inspection appointed y Secretary of the Navy Long. A Whitehead torpedo with a practice head was put n a cage and drawn through the expulsion hole in the bow of the submarine boat, and then adjusted in the aperture for a mission of 400 yards, to travel that distance within five feet of the surface water. When off Sixty-eighth street the signal to fire was given by the board of inspection, and the missile was expelled from the bow of the light craft and, in five jumps, each of which was punctuated with an explosion of air that sent the water flying seven feet high, the projectile traveled the distance of a quarter of a mile and was lasseed by the government

When the torpedo was fired the Holland was not submerged, her bow being fully eighteen inches above the water line, but, if it were necessary to fire the destroyer underneath the surface of the water, Captain Morris said that it could be accomplished just as easy at five, ten or fifteen feet under the surface.

SAMOA'S FOREIGN TRADE.

United States Commands a Greater Portion Than Any European Nation. WASHINGTON, Nov. 12,-The United

States last year commanded more of the Samoan trade, import and export, than any European nation, and in the matter of exports to the islands stood second only to the nearby Australian colonies. These facts appear in an official report to the state department from United States Consul General Osborn. He shows that, of the total imports, which amounted to \$329,630, the australian colonies sent \$157,695. The United Australian colonies sent \$157.695. The United States sent goods to the value of \$53.415. Great Britain came next with \$13.322, white Germany sent only \$5.562 worth of goods to the islands. The United States took more than a third of the entire exports from the islands, the exact figures being \$51.305, out of a total export of \$230.198. Moreover, the consul general says, a large percentage of the goods sent to Samoa nom Australia were of American origin.

COLONEL COIT

Fought With Great Distinction at Guayama, Porto Rico,

HEARTILY INDORSES PE-RU-NA, THE GREAT NERVE TONIC AND CATARRH REMEDY.

COL. A. B. COIT, WHO LED THE ADVANCE CHARGE AT GUAYAMA.

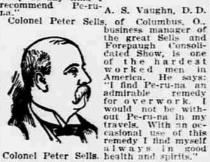

Commander A. B. Coit, Colonel of the 4th Regiment (Infantry), Ohio Voluneers, has been a prominent figure in military circles for a number of years in the State of Ohio. His regiment is considered one of the finest regiments ever mustered into the Uflited States service. In the recent victorious engagement at Guayama, Porto Rico, this regiment stood the brunt of the enemy's attack. The Spaniards were routed with considerable loss and the city captured. In a recent letter from camp to Dr. Hartman, the Colonel says: "Thanks for the case of your most excellent Pe-ru-na. It has been found invaluable as a tonic in this climate and in the various sicknesses attending a radical change in drinking water." In a prior letter this brave commander states: "Pe-ru-na as a catarrh remedy has made several remarkable cures to my knowledge. I desire to give the remedy my

hearty indorsement." Not only is Pe-ru-na a remedy suited to ! Another busy man is Mr. W. T. Powell, editor and publisher

Not only is Pe-ru-na a remedy suited to the climatic vicissitudes and muscular strain of the campuign and battle, and a systemic tonic for the farmer, mechanic and laborer, but it is equally efficient as a nerve and brain tonic to the over-worked professional. Rev. A. S. Vaughn, of Eureka Springs, Ark.. says: "I can testify to the merits of Pe-ru-na as a nerve tonic. I had been prostrated and almost dead. I took Pe-ru-na and I am now enjoying my usual health. To all who suffer from debility of any kind I recommend Pe-ru-A. S. Vaughn, D. D. La."

Colonel Peter Sells, of Columbus, O.,

He says: "I find daily use for Peru-na in my practice. I have never been disappointed in results with this remedy. I use hungreds of bottles of it."

D. P. Neihart, M. D. all professions, trades and occupations, from the North, South, East and West, praise Pe-ru-na. Everybody should have a copy of Dr. Hartman's latest book. Sent free by the Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

THE TIN PLATE COMBINE. Stock Is Already in Great Demand at a Premium of 5 Per

Cent. PITTSBURG, PA., Nov. 12.—All the po-tent interests in the tin plate industry are now getting together in the formation of the combination, which is to be capitalized at \$50,000,000. The promoters of the com-bination have been in Pittsburg for several days and their success has been such as to justify the statement that the market will soon be in possession of those signing the articles of agreement. Prices of the output have not been considered, but a regulation of the production is the primary

object of the new organization. object of the new organization.

To-day there were offers made by banking firms of Chicago, New York, St. Louis and other money centers, agreeing to pay 5 per cent premium on all the stock that has been subscribed. It was stated onight that six new signatures to the compact had been received from Western Pennsylvania.

One who is in a position to know the details of the tin plate situation said tonight: The committee has met with
